W. A. POWER.

Notice to Masons. Special meeting of Bath Lodge No. 55 F. & A. M. Thursday evening June 23, 1921 at 7:30 sharp. Work in E. A. Degree.

JNO. R. AMMERMAN, W. M.

There was a very welcome rain Saturday and Sunday. No rain had fallen here for more than a month and vegetation was needing it badly. The rain was general throughout the county, except in the extreme western portion. There was a good tobacco season all day Monday.

In the Federal court at Lexington a demurrer alleging that the petition did not state the cause of action in the case of Judge Allie Young, admr. of the estate of his brother Judge W. A. Young against the C. & O. R. R. Co., was overruled. Judge W. A. Young was killed near Lexington a year or so ago when his automobile was struck by a train.

1,185 Teachers Pass Of the 2,773 applicants who stood the teacher's examination, 42 percent or 1,185 of them passed. First class certificates were received by 17 and second class by 988.

Beginning the week of June 27, Misses Edna Byron and Verna M. Cook will be prepared to give vocal instruction at Miss Byron's home. Terms for tuition may be secured by making inquiry at this address.

NEW MACHINERY I have received and have now in operation an up-to-date equipment for shoe repairing, including machines for sewing or hand-sewing and other kinds of work requiring sewing or stitching. All work done promptly and in first-class manner. Send your work in by parcel post and receive it by return mail.

CLAY ROYSE.

PERSONAL Wm. McNabb is in Lexington this week.

Reese Wells was in Lexington Saturday.

Dr. A. W. Walden was in Lexington Sunday.

Mrs. T. M. Perry is the guest of relatives at Millersburg.

Misses Virginia Anderson and Lilian Conyers were in Lexington last week.

A. T. Byron left Monday to attend the National Hardware retail Congress at Louisville.

Mrs. J. A. Daugherty is visiting her son Thos. G. Daugherty and family at Flemingsburg.

Mrs. H. C. Jacobs and four daughters will arrive Saturday to visit Mrs. Taylor Doggett of Reynoldsburg.

Mrs. Alice Gillen left Friday for St. Joseph's hospital at Lexington, where she expects to remain some time.

Mrs. Edgar Denton and son, James Edgar, have returned from Cynthia where they visited their aunt, Dr. Adaline Bell.

Francis Kehoe, of Lockport, Ill., is visiting his uncle Jas. Gillon. Mr. Kehoe is a grandson of Mrs. Jane Murray, formerly of this town.

Miss Susan Richards has returned from a visit to friends in Louisville.

A number from here attended court in Mt. Sterling Monday.

C. M. Carter and wife, of Ashland, spent Sunday with Mrs. Jennie Myers. They were accompanied home by their sister, Miss Ethel Myers.

S. F. Redwine, wife and two children, of Bethel, Ohio, were guests of Mrs. Redwine's sisters Mrs. J. R. Day and Mrs. O. J. West from Friday till Sunday.

Mrs. Etta Anderson attended the commencement at Nazareth last week. Her daughter, Miss Christine Anderson, who was one of the graduates accompanied her home.

Mrs. Leslie Shroat and children are guests of relatives in Lexington.

Price Calk and Paul Hunt, of Mt. Sterling, visited friends here Sunday.

Miss Gene Brother was in Louisville Saturday.

Mrs. Roger Ammerman went Friday to visit Mr. and Mrs. Howard Wilkerson at Lexington. She was joined by her husband and children Saturday and spent Sunday as guest of Mr. and Mrs. Harry Van Deren at Cynthia.

Mrs. David Stamper has returned from a month's visit to her daughter Miss Etta Stamper, who is employed as stenographer and typist at Hazard, Ky. Mrs. Stamper was delighted with Hazard and says she would like to go there to live. Mrs. Stamper says that J. J. Thomas and Walton Utery, who recently went from here to Hazard, had both found satisfactory employment.

Miss Edna Byron is at home for the vacation from the Cincinnati College of Music, where she has been a student for several terms. Miss Byron was accompanied home by Miss Verna Cook, of Terre Haute, Ind., also a student at the College of Music. It will be remembered that these young ladies gave a most delightful concert last year and at the request of many who heard them last year they expect to give another concert in a short time.

The original plaster casts of Joel T. Hart's busts of Henry Clay and John J. Crittenden have been presented to the State of Kentucky by Mrs. Julia Barnard.

In the Christian Educational Movement of the M. E. Church for funds for their schools and colleges the Carlisle church raised \$8.375.

State Inspector E. G. Floyd spent several days here the past week checking up the county officials. He stated that he found all the officers in excellent condition.

What promises to be an event in the way of entertainment is the coming of the Campbell-Bailey Hutchinson Combined Circus and Wild West, which will give two performances at Salt Lick, Ky., Wednesday, June 29.

ATTENTION Bath Post No. 42 of the American Legion have rented and furnished a club room over R. C. Byron's grocery which will be opened July 1st, 1921. The public is cordially invited to enjoy the privileges of this club room, it being an ideal rest room and centrally located so that anyone may drop in and read the papers and magazines which you will find unfurnished free of charge.

We want to thank the public for their hearty cooperation and assistance in renting and furnishing this room and we want them to feel at home to drop in and see us at any time, BUT NOTICE, the by-laws and Constitution of the American Legion must not and shall not be violated.

Any person who is a member of the American Legion or who is not a member, who shall participate in any game whatsoever for gambling purposes or who shall partake of any kind of intoxicating liquor in said club room or shall bring into said club room any intoxicants or shall enter into this room for any immoral purpose, shall be expelled from said room and all rights and privileges shall be denied them and the offender whenever he may be shall be present out of the full extent of the law.

Let us have faith that right makes might, and in that faith let us to the end dare to do our duty as we understand it."

American Legion Bath Post No. 42. J. S. PIER, Commander.

OFFICIAL NOTICE. Under and by virtue of Sections 4322a-1 and 4322a-2 3rd Volume Kentucky Statutes, every owner, controller and manager of land bordering and abutting on the public highways of Bath county, are hereby notified that it is their duty under the said law to cut, clear away, remove and carry from along side the public highways of Bath county all bushes, weeds, shrubs and overhanging limbs of trees and all other such obstructions along said highways, and to keep all hedge fences along said highways so trimmed and cut back that same at no time will become more than five feet high.

You are hereby further notified that the brush, bushes, weeds, overhanging limbs of trees and all other obstructions along the said highways of Bath county are to be removed therefrom between the first day of July, 1921 and the 20th day of August, 1921. The law fixes the penalty for failing to perform the above duties upon conviction in a fine of not less than \$20 nor more than \$50.

ANDY JONES. County Road Engineer.

MRS. JENNIE JUDY. Mrs. Jennie Judy, aged 65 years, died at her home in Sharpshurg Monday, June 13, after long illness of kidney trouble. Mrs. Judy was the widow of Thos. Judy and daughter of Richard Ratliff, both deceased. She is survived by sons Richard Ratliff, of Winchester, Allie Ratliff, of Mt. Sterling and Willie Ratliff, of Sharpshurg, and sisters Mrs. Taylor Crockett, of near Sharpshurg, and Mrs. James White, of Montgomery county. Mrs. Judy was a faithful church member and a woman highly esteemed by a large circle of friends. The burial was in the Sharpshurg cemetery.

D. W. Finch D. W. Finch, lately of near this place, died at Colorado Springs Sunday morning, after an illness of more than two years, resulting from a severe attack of influenza. He went to Colorado hoping his health would be benefited by the climate. Mr. Finch came here ten or twelve years ago. He married as his second wife, Mrs. Belle Green, who was a daughter of Mrs. Barbara Shroat. He was 68 years old. He was a good industrious citizen and a genial, whole-souled friend. The burial was at Marietta, Ohio, his former home.

Wheat harvesting has commenced and the yield in this county is said to be lighter than usual.

Those who attended Mt. Sterling court Monday say the crowd was the smallest they had seen there for a long time and that while there were a good many cattle on the market sales were very slow.

Beginning the week of June 27, Misses Edna Byron and Verna M. Cook will be prepared to give vocal instruction at Miss Byron's home. Terms for tuition may be secured by making inquiry at this address.

CLAY ROYSE.

DONT FORGET THE RECITAL Prof. E. M. Coleman, cornet soloist, violinist and composer, assisted by Mrs. C. W. Young at City School Auditorium on Tuesday evening June 28. As soloist and director Prof. Coleman has appeared with some of the finest bands and orchestras in this country. His compositions have been played by the best organizations including Sousa's Band. We could never have secured his services easily but in connection with a band and orchestra at Winchester and one at Olive Hill we are able to secure his services one day each week. The expense for instruments and instruction is rather heavy and we believe the public should help us bear it. Attend the recital it will surely be worth the price of admission.

THE OWINGSVILLE BAND.

The Ant-noble Race to be given at Mt. Sterling, Saturday, June 25, promises to be a great event. Mr. Jones has secured no time or expense in making this one of the most attractive events of this season. The contestants are all men of force in the racing world and took part in the great Indianapolis Speedway last year. Auto polo will be played in the forenoon. There will be a balloon race, an airplane flight, high dives, a brass band, also a jazz band and a band.

Come To The Recital. Hear Prof. E. M. Coleman, cornet soloist, violinist and composer, Tuesday, June 28. He ranks as one of the country's finest cornet soloists. His work on the violin also is exceptionally good. The price is 35c and 50c. The entire proceeds are for the benefit of the Owingsville Band which exists for the good of the town and vicinity.

Struck by Lightning. A little after 7 o'clock Saturday evening lightning struck Mrs. Allie Brother's house on High street setting fire to some birds' nests in the gutter. An alarm of fire was given and the blaze was extinguished with a small extinguisher before the arrival of the fire engine. But little damage was done.

Hardly had Professor T. B. Threlkeld begun his life sentence in the penitentiary for the killing of Arthur Derran at Nicholasville last October when petitions were started by members of all the churches in Nicholasville asking the governor to pardon him. Prof. Threlkeld is 73 years old and was the head of a select school for boys at Nicholasville.

Dr. J. T. Dawson wishes the Outlook to state with reference to the notice copied from a Mt. Sterling paper that a son was born to J. T. Dawson and wife, of Owingsville, at the Mary Childs hospital, that he is the only J. T. Dawson that lives in or near Owingsville and that he is not a married man.

The Clwell brothers, at Columbus, when they had reached a depth of nothing over 600 feet in the well on Clyde Young's place got their drill fastened in the well and at last report had not succeeded in "fishing" it out.

Jesse Barber is having made the model of a centrifugal motor by which it is proposed to increase the power of engines a hundred fold and reduce the use of fuel in about the same proportion.

State Superintendent of Schools Colvin has declared the examinations of teachers void in the counties of Leslie, Taylor and Anderson because of evidences of fraud in obtaining certificates.

The long dry spell, making it impossible for many farmers to get their ground in order will materially decrease the usual acreage of Bath county tobacco.

The Owingsville Banking Co. has put down a handsome new tile floor and the Farmers Bank is newly painting and otherwise overhauling its banking house.

Bath and Japan are said to have had 27,000 earthquake shocks each in the last fifty years.

It is reported that seines are being used in Slate Creek and Licking river with impunity.

The estate of the late J. B. Haggins of Lexington, is computed by the executor at \$31,000,000.

2, 3 and 5 per cent. discount on all lines. E. L. & A. T. BYRON.

PROF. ERNEST M. COLEMAN

CORNET SOLOIST, VIOLINIST AND COMPOSER

ASSISTED BY MRS. C. W. YOUNG PIANIST

WILL APPEAR IN RECITAL AT THE City School Auditorium

TUESDAY, JUNE 28TH, 1921 8 O'CLOCK P. M.

Proceeds for the benefit of the Owingsville Band which was organized about two months ago. Prof. Coleman is the instructor and director of this band and is giving its entire proceeds for its benefit.

Prof. Coleman will render cornet and violin solos, will also render solos on Tuba, (bass), Baritone, Trombone, Mellophone, Mandolin and other instruments.

Prof. Coleman has studied at the Danas Institute with Alexander Lehman, noted violinist of Chicago, and at New York Institute of Musical Art (Darmrosch Conservatory); has held positions with some leading bands and orchestras of the country and appeared many times on Lyceum, Chautauqua and Vaudeville stage. Among the positions held by him may be mentioned Soloist with the New York Metropolitan Concert Band; Soloist at the Ben Ali Theatre, Lexington; Soloist Mutual Lyceum Bureau; Soloist Memphis Municipal Band; Director and Soloist National Chautauqua Band; Member of the Kilties Scotch Canadian Band; Royal Scotch Highlanders; Al G. Fields Minstrels, and many others too numerous to mention. Sufficient to say that Prof. Coleman is a brilliant performer.

THE PRICE IS 35c AND 50c

Hear Prof. Coleman, then attend the Chautauqua.

CREAM, CREAM!

Bring your cream to me for the highest market price, paid on testing and direct shipment. Thanking you for past patronage.

I am yours truly,

R. B. HORSEMAN, Operator Beatrice Creamery Company.

EARL B. THOMPSON IS A CANDIDATE FOR

CLERK OF THE

Bath Circuit Court

Subject to the Democratic party primary election August 6, 1921. Your support and influence respectfully solicited.

Down Goes THE PRICE

Best Island Creek Coal for \$9.00 a Ton

VULCANIZING

Bring your old tires in and have them repaired for the summer. Do not throw them away. Let us make new ones out of them for you for half price of new tires. All work warranted.

CROOKS & STAMPER.

C. C. MITCHELL.

ATTEND THE BIG AUTOMOBILE RACES AT MT. STERLING Saturday, June 25th, 1921

The greatest event of the season. Everybody else is coming, so you will be lonesome if you stay at home. Carnival, Balloon, Aeroplane; in fact all kinds of amusement. Racing contest between Kentucky and Indiana drivers.

ALLIE JONES, Manager. S. Lee McGowan, Supt. of grounds, Morehead, Ky.

How's This? HALL'S CATHARTIC MEDICINE will do what no other medicine can. It cures constipation, biliousness, indigestion, headache, neuralgia, rheumatism, etc. It is a blood purifier, and acts through the blood. It is the most effective medicine in the world, and is the only one that cures the most stubborn cases of constipation. All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

The Millionaire of the Year is the subject of Dr. Mitchell's lecture at our Chautauqua.

You may want five years or ten years or twenty years of service. We have light weight roofing for short term buildings and heavier weights for permanent buildings.

You can have your choice of red or green crushed slate surface, grapevine talc surface, smooth mica surface, or sand finish surface.

Each kind is sold in three or four different weights and is priced according to its weight.

Thus Carey Roll Roofings protect every type of building for the term of service required and give you the biggest value in each weight—and in the long run the lowest cost per year of service.

TRADE BODIES CRY, ENOUGH!

NEW YORK LEGISLATIVE
COMMITTEE BARES PRICE-
FIXING ACTIVITIES.

Societies, One Composed of
Plumbers and Manufacturers of Plum-
ber Supplies, and the Other Organi-
zation of Sheet Metal Dealers Prom-
ise to Dissolve and Be Good.

Buffalo, N. Y.—The promises of im-
mediate dissolution of two trade as-
sociations, one composed of dealers and
manufacturers of plumbers' supplies
and the other an organization of sheet
metal dealers, both of which were
shown to have been price-fixing or-
ganizations, rewarded the efforts of the
Lockwood Special Joint Committee of
the Legislature investigating the build-
ing situation in this city.

James W. Farrell, Secretary of the
National Sheet Metal Contractors' As-
sociation of Buffalo, N. Y., testified his
testimony regarding the fixing of prices
by his organization at the instigation
of the National Association of Sheet
Metal Contractors of the United
States, when Samuel Untermeyer, com-
missioner to the committee, asked: "Are you
ready to get together and go out of
business?"

"I suppose we are," Farrell an-
swered.
"All right," said Mr. Untermeyer,
"we will give you two weeks."
Turning to Joseph T. Foll, Treas-
urer of the Buffalo plumbers' sup-
plies firm, who had testified that he was
connected with both a local and state
association of plumbers supply deal-
ers, which he operated under price-
fixing agreements, Mr. Untermeyer
asked how soon he could have his business
dissolved by formal vote of the mem-
bers. He said he would call a meeting
immediately.

"And put yourselves out of exis-
tence by dissolution?" asked the com-
missioner.

"Yes," Foll said.
Throughout the session it was
brought out repeatedly that profits in
a number of cases reaching also 100
per cent were made on labor in the
sheet metal trades.

Fire Truck Hits Train.

Pertin Andy, N. J.—Seven firemen
were killed and nine others injured
when a fire truck crashed into the
tender of the Barnegat express in the
Market street crossing of the Central
Railroad of New Jersey. The firemen,
members of the Eagle Hose and
Chemical Company, a volunteer or-
ganization, were on their way to a
small warehouse fire when the accident
occurred. Fire department officials
declared that the safety gates at the
crossing were not down.

Marital Law Knocked Out.

Charleston, W. Va.—Coincided with
rendering of an opinion by the West
Virginia Supreme Court here which
is construed as virtually nullifying
Governor Morgan's proclamation of
marital law in Mingo County reports
were received at the Governor's office
that a man on Tug River in
Mingo County had been a strike-
breaker, as alleged. Names were
not given in the report received from
Major Thomas B. Davis.

Astor Home Looted.

New York.—Jewelry and other prop-
erty valued at \$40,000 was taken by
burglars from the Fifth avenue home
of Vincent Astor June 4, it became
known. Police threw a veil of secrecy
around the case as soon as it came to
their attention and not until now did
any word of the robbery reach the
public. The greater part of the loot
was the property of Captain Richard
Peters, a friend of Mr. Astor. On the
day of the robbery Mr. Astor was ill
in bed with a cold.

Bank Bandits Captured.

Harrodsburg, Ky.—A band of three
of posess, one from here and another
from Lawrenceburg, effected the early
capture of three men identified as the
robbers who held up J. N. Baker, cas-
hler of the Farmers' Bank of Salvisa,
Mercer county, 10 miles from here, ob-
taining more than \$12,000 to add to
the bank's vault. The men were identi-
fied by Baker as Greenburg Cornish, Will
Welsh and Pat Patrick, of Anderson
county.

Employees Warned.

Washington.—Interference on the
part of bureau chiefs or other Govern-
ment employees with the Administra-
tion plan of reorganization of govern-
mental departments and independent
bureaus is not to be tolerated, and will
result in the dismissal of the offenders.
This statement was made authorita-
tively following a meeting of the Presi-
dent and his Cabinet at which the
subject was discussed.

Opposition To Sales Tax.

San Francisco.—The National Asso-
ciation of Credit Men will be asked,
in its annual convention, to advise the
resolution placing it on record as op-
posed to both the excess-profits tax
and the tax on general sales. The re-
port to that effect is to be presented
by Roy G. Elliott, of Chicago, Chair-
man of the Committee on Federal Taxa-
tion. In the committee demands
the repeal of the excess-profits tax
and declares its opposition to the adoption
of any form of general sales or turn-
over taxes.

Britain Sets Aside Fund.

London.—The total expenditures
proposed for this year on the building
of capital ships for the British navy
is 2,000,000 pounds, Lieutenant Colonel
Amery, Parliamentary and Financial
Secretary to the Admiralty, stated in
the House of Commons. Lord Lee, of
Farnham, First Lord of the British
Admiralty, announced in London last
March 14 that the British naval esti-
mates for 1921-22 amounted to 91,186,
889 pounds gross and 82,470,000
pounds net.

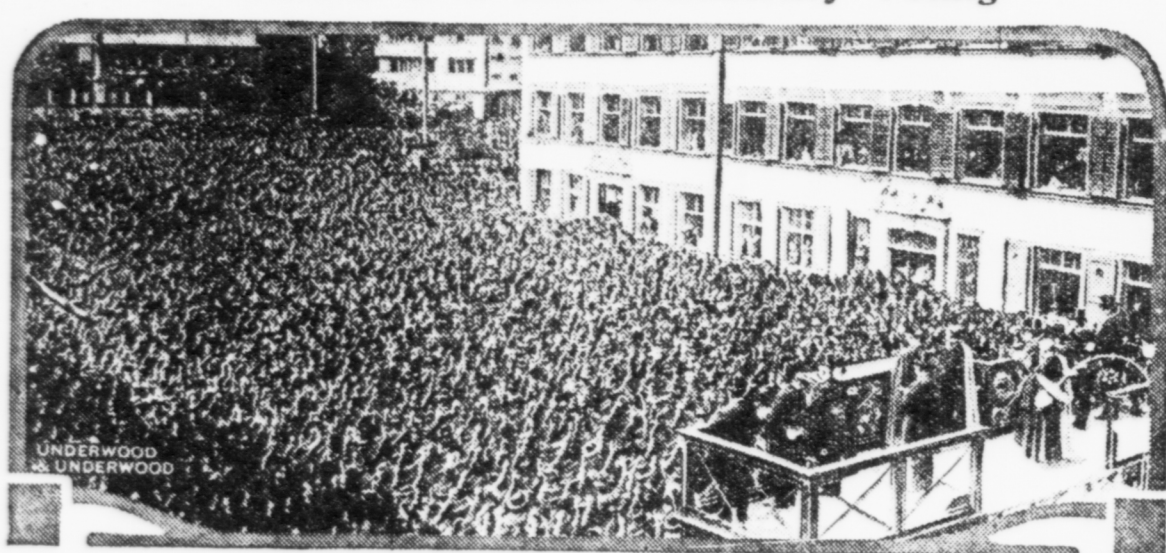

Traveled With Live Eagles

upon a great company of men, carry-

Citizens of a Real Democracy Voting

Switzerland boasts two of the most democratic districts or cantons in the world—Glarus and Appenzel. In those democratic towns of two hundred or less, the right hand is doing the bidding of the left hand. This is a scene during the recent election of the town officials of Trogen, Canton of Appenzel.

PASSENGER TRAIN GOES THROUGH BRIDGE

EASTBOUND TRAIN NO. 606 IS
WRECKED ON CHICAGO AND
NORTHWESTERN R. R.

Killing Five and Injuring Fourteen
Near Crawford, Neb.—Four Men
Are Missing—Relief Train Take
Dead and Injured to Chadron.

Omaha, Neb.—Five persons killed,
14 injured, a number seriously, and
four are missing, in the wreck of the
Eastbound Train No. 606 on the Chi-
cago & Northwestern Railroad, near
Crawford, Neb. The forward sleepers
of the train plunged through a
bridge over Big Cottonwood Creek,
after the engine and mail car had
passed safely, according to first re-
ports. The relief train took the dead
and injured to Chadron, a few miles
east of the scene of the wreck, and
returned to the wreck to complete the
search of the debris for missing pas-
sengers.

Conductor Finnegan was among the
injured taken to Chadron, and the
check of the passengers was impeded.
Crawford is in the far northwest cor-
ner of Nebraska, and wire communi-
cation with the scene of the wreck was
meager.

The dead: Frank Rosner, Lander,
F. M. Stewart, Gordon, Neb.; R. C.
Scott, baggageman, Chadron, Neb.; C.
M. Buck, Grand Island, Neb.; B. F.
Skiles, Chadron, Neb. The injured
were taken in a special train to a hos-
pital in Hot Springs, S. D., with sur-
geons from Chadron attending them.
Wrecking crews were sent from Cas-
per, Wyo., and Chadron.

The bridge over the creek sagged as
the engine of the train left and three
cars, the mail, baggage and smoker,
were piled up on the creek bank. The
bridge was weakened by a cloudburst.
Railroad reports said there was no
sign of the cloudburst at 8:30 o'clock
when a westbound train crossed the
bridge. At 11 o'clock, when No. 606
arrived, the bridge apparently was in
good condition, but as the engine near-
ed the end of the structure sagged.
The engine broke loose from the tender
and the 600 feet of the train rolled
the sleeper is the only car remaining on
the track.

The seriously injured: J. N. Less-
ley, Springfield, Mo.; W. Goodell,
Chadron, Neb.; William Bryant, Blair,
Neb. The bodies of the dead were re-
moved to Chadron.

Turks Warned.

Constantinople.—Britain has warned
Turkish Nationalists that attempts
to take Constantinople will mean war
with Great Britain. The purpose of
sending a British brigade from Malta
to relieve the Greeks at Ismid is to
frustrate any Nationalist attempt to
occupy Constantinople. Opening of
the Greek offensive against Turkish
Nationalists in Asia Minor is believed
to be imminent.

Bakery Prices To Stay.

St. Louis.—There will be no im-
mediate reduction in the cost of bakery
products, J. C. Lewis of Minneapolis,
declared before the convention of the
Retail Master Bakers' Association of
America. Prices of certain ingredients
used in making bread and pastries
have decreased, he said, but overhead
expenses in most instances have re-
mained stationary.

Illinois Congressman Dead.

Washington.—Representative W. E.
Mason, of Illinois, died here of heart
disease. Although Representative Ma-
son had been ill for several days, his
condition was reported to have shown
improvement, and death came unex-
pectedly after a sudden relapse. Mr.
Mason was 71 years old and formerly
was a member of the Senate.

Cheating Is Charged.

Frankfort, Ky.—Charging that whole-
sale cheating took place in the Leslie
County teachers' examination at Hy-
den on May 29 and 31, George Cochran,
State Superintendent of Public Instruc-
tion, threw out the examination papers
forwarded to his office and ordered
another examination. Affidavits of par-
ticipants in the examination were
made public by the Superintendent, in
which they declared that everybody
helped one another and that the ex-
aminers helped them. "Assistance was
to be had for the asking," said one.

Cincinnati Postoffice Robbed.

Chicago, O.—A daring thief at
noon entered the wholesale stamp
booth in the main corridor of the Cin-
cinnati Postoffice by means of a dupli-
cate key and escaped with between
\$8,000 and \$10,000 in cash, postage,
stamps and savings stamps. At the
time of the robbery the corridor of the
postoffice was thronged with persons
passing to and fro directly in front of
the door by which the robber gained
entrance into the booth. Whether he
used a duplicate or a skeleton key is
not known.

HARDING ANNULS CONTRACT

Former Army Officers May Be Prose-
cuted As a Result of the Har-
dness Contract.

Washington.—"Criminal proceedings
against a number of former army offi-
cers may follow the action of Presi-
dent Harding in cancelling War De-
partment contracts with the United
States Harness Company, of Ransom,
W. Va., for the disposal of surplus har-
ness, it was said at the Department
of Justice. Attorney General Harry
M. Daugherty, it was said, was con-
sidering the Government's course of
action and was expected to announce
his decision soon.

Cancellation of the contracts by the
President was announced by Secretary
John W. Weeks, who explained that
they were entered into by a former
Director of Sales of the War Depart-
ment, and that the contracts were for
the disposal of surplus military har-
ness and accessories, which were re-
turned to the United States Harness
Company to be reconditioned and
sold, or sold in its original condition
upon a profit-sharing basis. The facts
developed by the Attorney General
led him to the conclusion that these
contracts had been entered into as a
result of a plot on the part of cer-
tain temporary officers of the army to
obtain these contracts and the control
of large stocks of harness on hand
for their own benefit.

In a memorandum made public,
Secretary Weeks said in part:

"These contracts were entered into
by the former Director of Sales with
the approval of Secretary Baker, and
provided that the large accumulation
of stock of surplus military harness
and accessories were to be turned
over to the United States Harness
Company to be reconditioned and
sold, or sold in its original condition
upon a profit-sharing basis. The facts
developed by the Attorney General
led him to the conclusion that these
contracts had been entered into as a
result of a plot on the part of cer-
tain temporary officers of the army to
obtain these contracts and the control
of large stocks of harness on hand
for their own benefit.

"Give Him a Pill," Is Threat.

Toledo, O.—Threats to "give him a
pill" while he is in the county jail were
made against Rev. Anthony Gorek, a
Catholic priest at New Chicago, Ind.,
if he testified against other defendants
in the million dollar postoffice rob-
bery here last February 17, according
to testimony of the priest given in Fed-
eral Court. Rev. Gorek is one of more
than a score indicted in the robbery,
but who is not on trial because the
Government is using him as a witness.

Bandit Is Captured.

Centralla, Wash.—Roy Gardner, fugi-
tive mail robber, was captured here
after escaping from Federal officers at
Castle Rock recently while being
taken to the penitentiary at McNeil
Island, Wash. Gardner, who was cap-
tured by a city patrolman, said he ar-
rived at Centralla on a freight train
from Castle Rock and had been roving
the streets since. He said until he
left Castle Rock he had not been more
than a mile from town.

Five Are Killed.

Uniontown, Pa.—Five persons were
killed and six others were injured near
here when the auto in which they
were riding collided with another
machine on the Dutch Hill road and
plunged into a creek. The dead, three
of them children of Mrs. Mamie Hul-
lenbaugh, of Clarksburg, Pa., were:
Edna, Leonard and Wilbur Hullen-
baugh and Betty Jane Newhouse, three
years old, and Mrs. Rachel Newhouse.

Protest to Mexico Filed.

Mexico City.—Formal protest
against President Alvaro Obregon's re-
cent decree increasing taxes on export
petroleum was filed with the Mexican
Department by representatives of the
Associated Oil Producers of Mexico.

Ringleaders in Toils.

Chicago, Mich.—Michael Carozzo, Presi-
dent of the local Street Cleaners' Union
and associate of "Big Tim" Murphy,
who was arrested for questioning in con-
nection with the Dearborn street
mail robbery. He is under indictment
charged with having attempted to dis-
pose of the stolen money. With the
arrest of Carozzo, postal authorities
believe they have the ring leaders of
the mail robbery. The authorities
assert that Carozzo, with "Big Tim"
Murphy and Vincenzo Cosmano, planned a series of mail thefts.

Ships To Aid Restriction.

Washington.—Steamship companies
have agreed to limit the number of
immigrants they will bring into Ameri-
can ports each month to the average
capacity of the ports as fixed by the
immigration officials. W. W. Husband,
Commissioner General of Immigration,
announced. Arrivals at Ellis Island
will be so controlled, Mr. Husband
said, as not to exceed 1,500 a day,
and probably will average about 1,000.
During the rush after the war 5,000 im-
migrants have been handled at the
island in a day.

upon a great company of men, carry-

ENGLISH ENTENTE VIEW OF HARDING

ASSOCIATION OF NATIONS TO
PRESERVE PEACE SOUGHT
BY AMERICA.

Move Does Not Include a Treaty Nor
An Alliance, But Rather a Workable
Understanding Between Nations—
Would Rectify Mistakes of Both Na-
tions at Peace Conference.

Washington.—American diplomacy is
working in the general direction of an
entente among the English-speaking
peoples of the world as the nucleus
of an association of nations for the pres-
ervation of the world peace.

The purpose does not envisage a
treaty. No alliance is in prospect,
what is aimed at, as the first step, is
the ironing out of all appreciable dif-
ferences so that a relationship may be
established between the British Em-
pire and the United States similar to
that which exists between this country
and Canada.

Evidences of this purpose are seen
in a movement on the part of the pow-
erful Northcliffe press in England,
which senses the purpose of American
diplomacy as it is being disclosed. The
English attitude is indicated as in-
dicative of a ready response to the pur-
pose of the Harding Administration on
the part of Great Britain, which is
now free to face with the establish-
ment of its future policy in connection
with the Dominion Premiers.

The Anglo-American entente has a
close relationship to the attitude of
the Foreign Offices of both Govern-
ments, threatening as it does the
friendly understanding between the
peoples of both countries.

It is recognized here that the value
of the proposed alliance to Japan is
in its moral alignment of England with
Japan in any possible future conflict
with the United States, while its value
to Great Britain rests in the greater
security which it would assure to the
British control of India. This conflict
of interest is seen here as presenting
the English attitude in connection with
the proposed alliance of England with
Japan in any possible future conflict
with the United States, while its value

FROM REMOTEST
PARTS OF GLOBETanlac Elements Come From
Many Lands Far Away
From Here.

The ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth, and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, and Walkersville, Canada.

The Alps, Apennines, Pyrenees, Russian Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac, which, according to recent reports, is now having the largest sale of any medicine of its kind in the world, over 20,000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs, barks and flowers are received in their rough state from all parts of the world, until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to tens of thousands of druggists throughout the United States and Canada, to supply a demand never before equaled by this or any other medicine.

Tanlac is sold by leading druggists everywhere.—Advertisement.

The Mystery of
the Silver DaggerBy Randall
Parrish
Author of
"The Strange Case
of Cavendish"

ACTION! ACTION!

Adventure—romance—mystery—battle, murder and sudden death! Well, rather. And action, action, action—every page. That's Randall Parrish's new story, "The Mystery of the Silver Dagger."

Suppose you were an American diplomat and you fell in love at first sight with a wonderful, mysterious girl who was apparently deep in an international revolutionary conspiracy and you had the identity of a famous crowd thrust upon you and you found one of the chief conspirators dead from a stab wound in the room where you were to work to break up the conspiracy and solve the murder and win the girl—wouldn't you be busy? Well, that's this here story.

As to Randall Parrish, all novel-readers know him and his stories. And this is one of his best.

CHAPTER I.

The Message in the Box.

Anticipating the possibility of my train arriving late, I had named the hour of my meeting with Cummings as three o'clock, and, in consequence of my reaching the city exactly on time, was compelled to loiter till after the hour for an hour. However, in passing through the corridor my attention was attracted by a unique curiosity shop occupying a small side room, and, merely to pass the time pleasantly, I entered and began examining the strange collection of wares on display.

There were several articles I lingered over, tempted to purchase, but drifted on, rather undecided, until my eyes perceived a very quaint lacquered jewel box, of a class of workmanship quite unusual. The proprietor, perceiving my interest, joined me.

"The jewel box attracts you," he said pleasantly, opening the case and bringing it forth. "You have love for such things?"

"A deep interest at least," I admitted, taking the article into my hand. "a collector in an amateur way. What is the workmanship—surely not Japanese?"

"No," smilingly. "Although positively I cannot answer as to its origin. The inscription, which can only be read with a lens, is in Arabic, but no word Arab ever did the lacquer."

"Yet so strange a curio must have a history, an imaginary one, at least. What is the story?"

"Positively none," he admitted regretfully. "The article was found by a chambermaid in one of the hotel rooms, and turned in to the manager. He made every effort to trace the guests, only to learn that they, two men, by the way, had registered falsely. He even advertised, but with no response, and finally, after thirty days, was persuaded to accept my offer for the article."

"You have put a price on this?"

"Yes, ridiculously low, no doubt, yet bringing me a good profit."

He named a price, and, still with the box in his hand, yielded to temptation, and bought it. The article was sufficiently small to find lodgment in an overcoat pocket, and, as Cummings appeared a little later, was soon forgotten in the earnestness of our conversation. We later had dinner together, and I counted twice, avoiding my mind so occupied with other matters that I scarcely once thought of the strange purchase I had made, which remained securely hidden. It was only after returning to my own room, then nearing midnight, that it was again recalled to memory.

Only an idle curiosity and a feeling of sleeplessness induced me to draw the article forth, and remove its wrappings, but the sight served immediately to increase my interest. It was certainly a wonderful find, artistically beautiful, and most unusual in design. There was a mystery that must have exercised a strange spell over my imagination, for I dreamed of the long dead workman who fashioned it, forgetful of the passing night hours. A clock somewhere in the neighborhood struck, and I counted twelve, avoiding myself. Perhaps I was already half asleep, for as I turned to rise my sleeve struck the box at the edge of the table, and before I could prevent the fall, it lay upon the floor at my feet.

As I stooped hastily to recover the overturned box, I was astounded to discover the bottom slipped partially aside, as though some secret spring had been touched, revealing so narrow a receptacle that the ordinary eye would never suspect a possibility of its existence. Not only was there a false bottom, but the opening revealed a closely folded paper. I grasped this quickly, a thrill running through me. What ancient and long-forgotten message was about to be unfolded?

But no! This was plainly modern—a clean, white sheet, no folded parchment of old, but some mystery of yesterday. There was writing there, in Spanish, so faintly traced I could barely decipher the words, yet clearly revealed as of this day and generation. I knew Spanish fairly well, having had a year in Mexico City, yet it required some time before I could puzzle out the message on this sheet. The paper had been torn, seemingly sundered from a much longer letter, and preserved merely because of the specific address and instructions it contained.

Canada's Greatest River

The Mackenzie river is one of the great streams of the world, draining 1,800,000 square miles, having had a year in Mexico City, yet it required some time before I could puzzle out the message on this sheet. The paper had been torn, seemingly sundered from a much longer letter, and preserved merely because of the specific address and instructions it contained.

Beyond doubt all else had been destroyed. What remained may have been sufficient guidance to the party who had the benefit of that went before in the original episode, but was obscure to anyone else. Yet it was modern, something relating to this very time, a message; something to be grasped and understood. This conviction absolutely gripped me. I stared at the rather sinister words, blithely groping at what lay hidden behind them, instinctively scenting a conspiracy of evil which I could not determine. All unintentional I had stumbled into a clue which might lead to startling results, yet it seemed to give me no hint of who was involved, or of its real nature. I put the words together, weighing each one with care as to its exact meaning, and read them over with increased bewilderment. The torn fragment began and ended abruptly. I could only guess at its meaning, yet the impression left upon my mind was both sinister and menacing. I wanted to know more.

It rained Saturday from Stockholm. Will deposit letter of credit with Krantz to your order. Amount ample all needs. See this at once and advise 55 Gans, so as to be no delay. Two rap, three—Cervantes. Waldron favors action this month, the best in the room vaulted. After holding it for a day or two in expectation that it might be called for, no such inquiries being made, the hotel endeavored to trace the men, but to no avail. The fellows had either falsified, registered, or were entirely unknown where they claimed residence. The first was the most probable condition. After thirty days, and having exhausted all reasonable efforts to find the rightful owner, the hotel felt legally justified in selling the trinket. That all Burke knew of the matter, and his interest in it was not known.

I am inclined to think now that I went at the problem without much system, and that any success achieved was through pure accident. During the forenoon I dropped in upon Clement Breckenridge, cashier of the Doan's National Bank. We had been acquainted for some time, and he had called on him when in the city. This time I led the conversation to Kuhn, Krantz & Co., on the pretense that I had received mail from them relative to some recommended investment. Clement knew Krantz well and favorably, and my probing elicited the information that the man was Austrian by birth, but a naturalized citizen, rather deeply interested in political matters. If his sympathies were at all revolutionary he had carefully refrained from any such open expression. The church in question was of handling South American business and had intimate financial connections in both Rio and Buenos Aires. The company ranked high in financial circles.

"The present war must have cost them a rather heavy loss," I hazarded. "However, this is nothing to me. By the way, Clement, do you chance to know of a Gans street in this town?"

"Gans? That is a new one on me. Try the city directory—there on the edge of the desk."

The name was not to be found, nor any other discrepancy in the spelling, and I finally drifted out onto the street, really no wiser than when I first entered. I made one more effort, however, telephoning to a detective sergeant whom I knew well, as to the present whereabouts of Ivan Waldron.

The last heard of Ivan Waldron, he was in West Virginia, speaking to striking miners; that was less than a week ago; he had not been seen in the city since.

I. Duties to God; II. Duties to Man.

House Divided Against Itself.

He who sits above the waterfalls is still working out His ways, and man's extremity is, as ever, God's opportunity. But if we are to be real sharers in this work of divine reconstruction, and fulfilling of God's purposes for the human family, it behooves us to be prepared by prayer and effort to repair the breaches which human waywardness has wrought in that instrument which He has chosen especially to work out humanity's salvation—the church of the living God, the Holy Catholic and Apostolic Body of Christ. For until these wounds are healed the church must present herself as a house divided against itself; and because the Saviour's prayer for a unity in the "one fold" remains unfulfilled, His enemies continue to triumph and the forces which make for righteousness are thwarted.—Bishop Howden.

What the Lord Said.

The one thing indispensable in the service of Christ we can learn no more than to love Him. Here is the spiritual secret which makes a saint so potent for the highest good. For it is true of a saint that "the least of his words and actions may be of more vital effect in the world than the life's labor of any or the herd of benevolent people who are busied about much serving." Our Lord said concerning His chosen friends: "For their sakes I sanctify, I consecrate, Myself." Even when we set apart that which was unique in His self-consecration—all that He alone could, once for all, achieve—those solemn words come home to every disciple. For their sakes I consecrate myself.

Nothing So Sure as Death.

A blessed thing it is to die here, that we may live there. "And nothing is so sure as death, and nothing so uncertain as life. I may be too old to live; I can never be too young to die. I will therefore live every hour, as if I were to die the next."—Selected.

Fiction Par Excellence.

"Scribner seems to be having great success with his moving picture scenarios; did he take a college course in fiction writing?"

"College course nothing. He started in by selling suburban real estate."

No Difficulty There.

"My daughter," said Mrs. Gotrox, dubiously, "is by no means poor, you know."

"Oh, that's all right," responded the suitor cheerfully. "I'm poor enough for two."—Grand Rapids News.

Enter the heroine.

(TO BE CONTINUED.)

WHY BRICK CHIMNEYS LEAN

Reason Generally Ascribed Is Alternate Wetting and Drying to Which They Are Subjected.

Between the wagon builder, alternately wetting and drying a board to bend it to the desired shape, and the house chimney, grotesquely leaning to one side, there is a similarity. The leaning chimney is a subject on which even the doctors disagree, but the theory referred to seems the most plausible.

Chimneys lean toward the east. A little observation anywhere will prove this. Even the best-built affair of brick and mortar, acquiring age, often begins to lean. Various theories are advanced, but the explanation of alternate wetting and drying seems the best.
